#### ANNUAL REPORT

**MARCH 31, 2013** 

#### FORWARD-LOOKING STATEMENTS

This annual report contains forward-looking statements that are made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements relate to our future plans, objectives, expectations and intentions and involve inherent risks and uncertainties. We use words such as "expect," "anticipate," "project," "believe," "plan," "intend," "seek," "should," "estimate," "future," or variations of such words and other similar expressions to identify forward-looking statements. You should not place undue reliance on these forward-looking statements. Forward-looking statements contained herein (including future cash contractual obligations, liquidity, cash flow, orders, results of operations, and trends, among other matters) or in other statements made by us are made based on management's expectations and beliefs concerning future events impacting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed or implied by forward-looking statements. We believe that the following factors, among others (including those described in Item 3.D. "Risk Factors"), could affect our future performance and the liquidity and value of our securities and cause our actual results to differ materially from those expressed or implied by forward-looking statements made by us or on our behalf: the cyclicality of the markets which we serve and the vulnerability of those markets to economic downturns; the impact of the recent global economic and financial crisis; the loss of, or a significant reduction or delay in purchases by our customers; competition in our markets; financial distress of third parties; general economic, political, business and market risks associated with our global operations; fluctuations in foreign currency exchange and interest rates; our ability to control our costs while maintaining customer relationships and core business resources; the pricing and availability of raw materials; litigation and disputes involving us, including the extent of product liability, warranty, pension, employment and other similar claims asserted against us; the impairment of our goodwill and other indefinite-lived intangible assets; labor costs and disputes and the deterioration of our relations with our employees; additional liabilities related to taxes; our ability to continue our technical innovation in our product lines; our ability to protect our intellectual property and know-how; claims that our products or processes infringe intellectual property rights of others; regulations governing the export of our products; fluctuations in the price of our stock; and other factors described in this annual report. All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this annual report and are expressly qualified in their entirety by the cautionary statements included in this annual report. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.

### LETTER TO OUR SHAREHOLDERS

Fiscal 2013 marks the first year in the Company's history in which the majority of revenues were generated domestically. We expect this trend to continue as our plans to transition the Company from an export-driven home appliance business into a domestic-focused electronic components and medical instrument business further materialize. As with most transitions, especially those as drastic as ours, challenges have and will continue to arise. It is vital that we continue to meet all such challenges head on and remain focused on the long-term growth and success of the Company.

Net sales for fiscal 2013 were \$81.1 million, an increase of approximately 16.4% when compared to net sales of \$69.7 million in fiscal 2012. Net loss for fiscal 2013 was \$2.0 million, or \$0.65 per share, compared to a net income of \$1.4 million, or \$0.46 per share, in fiscal 2012. Losses in fiscal 2013 were primarily attributable to continuing common charges (which were previously absorbed by our floor care business and now reflected in discontinued operations) no longer reflective of our current operations and weak performance in the Company's electronic manufacturing services (EMS) business. Both issues are currently being addressed.

While incurring losses in fiscal 2013, the Company's cash flow remained positive as our net cash position increased approximately \$1.9 million to \$42.2 million, despite investing approximately \$7.8 million in capital equipment to improve our electronic component business.

Perhaps the most significant issue management faced in fiscal 2013 was determining the appropriate use of the vacant portion of our facility in Dongguan, China following the discontinuation of the Company's home appliance segment. While operational expenses associated with the home appliance segment were eliminated as a result of our exit from this segment, many of the common charges associated with the facility, such as real estate taxes, maintenance and security expenses remain a liability. Our facility continues to appreciate in value, which makes it imperative that the space be used to generate income that, at a minimum, covers ongoing costs associated with owning and maintaining the vacant space. We offered for rent 88,000 square meters of production/warehouse space and 6,500 square meters of dormitory space, some of which was leased during late fiscal 2012. As of September 2013, we had leased 76,000 square meters of warehouse space. Our aim is to lease the remaining vacant space by the end of calendar 2014. At current rates, we would receive about RMB9.5 million, or US\$1.5 million, on an annualized basis if the entire vacant space was rented. During fiscal 2013, our rental income was US\$178,000.

During fiscal 2013, the Company purchased office space in Shenzhen, China for approximately US\$4.2 million. This decision was made based on the pending expiration of the current office lease and heightened renewal rates. We believe that owning property in China continues to be a productive use of resources.

Net sales of our electronic components business grew nearly 20% in fiscal 2013 from an 11% unit-volume increase. While the mix of business improved, our plans to produce predominantly higher megapixel CCMs never materialized, due primarily to an unanticipated shift in customer demand. In an effort to further improve this business, we completed the installation of three

chip-on-board (COB) production lines and a Class 10 clean room. Since COB production lines are capable of producing higher-pixel camera modules and other precision-related devices, we believe that our CCM business will continue to grow through the addition of new customers and the sale of higher profit margin products.

Our electronic components business segment also includes a number of security and scanning devices that we designed incorporating our CCM modules. In fiscal 2013, we generated about \$3.8 million in sales from these devices and are cautiously optimistic that the revenues from these products will continue to contribute to segment growth.

The continued slowdown in the Chinese economy has had a material adverse impact on our EMS business, which relies exclusively on the Chinese domestic market. Labor shortage and inflation related to wages and labor benefits also affected operating results. A trend towards moving labor-intensive businesses to northern China and other Asian countries has emerged, with the largest EMS operator in China relocating from Guangdong Province. Accordingly, we are considering strategic alternatives, including the potential leasing of our SMT equipment and the facility that houses and operates such equipment in an effort to generate additional income and to improve our financial performance.

Our disposable medical instrument business is progressing slowly since obtaining the various required approvals and licenses in China remains a work in progress. Our existing products are currently being used in over 100 hospitals in China. As this business continues to grow, it is essential that we accelerate our training program. Accordingly, we are currently engaging more trainers while concurrently expanding our research and development efforts. We have three new products in the certification process and expect to obtain approval for clinical trial sometime in fiscal 2015. Revenues from this business thus far are modest, but we believe that the disposable medical instrument business presents significant opportunity for growth.

The dynamic environment in China requires that we maintain flexibility to move in and out of businesses as circumstances change while at the same time protecting our cash and real estate assets to the fullest. We appreciate your continued support and hope that your patience will soon be rewarded. Again, I wish to thank my fellow employees and shareholders for their ongoing support.

### AUDITED CONSOLIDATED FINANCIAL STATEMENTS

**AS OF MARCH 31, 2013 AND 2012** 

AND FOR THE YEARS ENDED MARCH 31, 2013, 2012 AND 2011

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and shareholders of Global-Tech Advanced Innovations Inc.

We have audited the accompanying consolidated balance sheets of Global-Tech Advanced Innovations Inc. and its subsidiaries (collectively referred to as the "Company") as of March 31, 2013 and 2012, and the related consolidated statements of operations and comprehensive income, changes in shareholders' equity and cash flows for the years ended March 31, 2013 and 2012. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing auditing procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. Our audit also included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial positions of the Company as of March 31, 2013 and 2012, and the consolidated results of its operations and cash flows for each of the years then ended, in conformity with accounting principles generally accepted in the United States of America.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 1. ORGANIZATION AND PRINCIPAL ACTIVITIES

Global-Tech Advanced Innovations Inc. ("Global-Tech") (formerly known as Global-Tech Appliances Inc.) is primarily an investment holding company, which was incorporated in the British Virgin Islands on May 2, 1991. Global-Tech and its subsidiaries (hereinafter collectively referred to as the "Company") is primarily a manufacturer of consumer electrical products, including, but not limited to electronic and optical components, and is also involved in the assembly of cellular phones. The Company's manufacturing operation is located in Dongguan, the People's Republic of China (the "PRC"). The Company's products are primarily sold to customers located in the PRC.

Effective December 10, 2008, Global-Tech's common stock was no longer traded on the New York Stock Exchange and commenced trading on the Nasdaq Capital Market ("Nasdaq") under the symbol "GAI". Global-Tech also changed its name to "Global-Tech Advanced Innovations Inc.", effective as of the close of business on December 10, 2008.

To satisfy the minimum bid price requirement of Nasdaq, Global-Tech's Board of Directors authorized an amendment to Global-Tech's Memorandum of Association to effect a 4-for-1 reverse stock split of the issued and outstanding shares of common stock of Global-Tech, effective as of the close of business on December 10, 2008 (the "Effective Date"). Global-Tech also proportionally reduced the authorized number of its common and preferred stock by four to 12,500,000 and 250,000, respectively. These financial statements present common stock, preferred stock and share option information to reflect the above-mentioned reverse stock split on a retroactive basis.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of preparation

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("U.S. GAAP").

#### (b) Basis of consolidation

The consolidated financial statements include the financial statements of Global-Tech and its subsidiaries. The fiscal year end date of Lite Array Holdings Limited ("Lite Array Holdings"), a jointly-controlled entity of the Company, is December 31. There have been no significant transactions in Lite Array Holdings and its subsidiaries which would materially affect the Company's financial position and results of operations during each of the periods from Lite Array Holdings' fiscal year end date to March 31, 2013, 2012 and 2011, respectively.

All significant intercompany balances and transactions between group companies are eliminated on consolidation.

#### (c) Discontinued operations

Unless otherwise indicated, information presented in the notes to the consolidated financial statements relates only to Global-Tech's continuing operations. Information related to discontinued operations is included in note 18 and in some instances, where appropriate, is included as separate disclosure within the individual footnotes.

#### (d) Use of estimates

The preparation of these consolidated financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the amounts that are reported in these consolidated financial statements and accompanying disclosures. The most significant accounting estimates with regard to these consolidated financial statements that require the most significant and subjective judgments include, but are not limited to, valuation of investments and determination of other-than-temporary impairments, useful lives of property, plant and equipment, recoverability of long-lived assets, determination of impairment losses, assessment of market value of inventories and provision for inventory obsolescence, allowance for doubtful accounts, provision for employee benefits, provision for warranty, recognition and measurement of current and deferred income taxes (including income tax benefit (expense)), valuation allowance for deferred tax assets, assumptions used for the valuation of options to purchase Global-Tech's common stock, provision for loss contingencies, and measurement of fair values of financial instruments. Changes in facts and circumstances may result in revised estimates.

#### (e) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and bank deposits, which are unrestricted to withdraw and use, and other investments that are readily convertible into cash with original maturities of three months or less.

#### (f) Restricted cash

Restricted cash consists of bank deposits, which may only be used to settle pre-arranged general banking facilities.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (g) Investments

Debt and equity investments designated as available-for-sale investments are stated at fair value. Unrealized gains or losses, net of tax, on available-for-sale investments are included in accumulated other comprehensive income (loss), a separate component of shareholders' equity. Realized gains and losses and any declines in fair value judged to be other-than-temporary on available-for-sale investments are included in the consolidated statement of operations and comprehensive income. Gains or losses on sale of investments and amounts reclassified from accumulated other comprehensive income (loss) to earnings are computed based on the specific identification method. Interest or dividend income on securities classified as available-for-sale investments is included in interest income or dividend income, respectively.

Non-derivative securities with fixed or determinable payments and fixed maturities are classified as held-to-maturity investments if the Company has both the positive intention and ability to hold the financial assets to maturity. Investments intended to be held to maturity are measured at amortized cost. Interest on securities classified as held-to-maturity investments is included in interest income.

Prior to April 1, 2009, declines in the fair value of held-to-maturity and available-for-sale securities below their amortized cost, that were deemed to be other-than-temporary, were all reported in investment gains (losses), net. Effective April 1, 2009, the Company adopted new accounting guidance for impairment of debt securities that are deemed to be other-than-temporary. Factors considered in evaluating potential impairment include, but are not limited to, the current fair value as compared to cost or amortized cost of the security, as appropriate, the length of time the investment has been below cost or amortized cost and by how much, our intent to sell a security and whether it is more-likely-than-not we will be required to sell the security before the recovery of our amortized cost basis, and specific credit issues related to the issuer and current economic conditions. Under the new impairment model, the credit component of an other-than-temporary impairment of a debt security is reported in investment gains (losses), net and the noncredit component is reported in other comprehensive income (loss). In addition, other-than-temporary declines in beneficial interests purchased or retained in a securitization transaction which are classified as available-for-sale debt securities are recognized if there has been an adverse change in the cash flows as of the end of the reporting period. Interest and dividends, as well as amortization of premiums and accretion of discounts, are reported in interest and dividend income. Amortization of premiums and accretion of discounts on debt securities are recognized over the remaining maturity under the interest method.

A jointly-controlled entity is a joint venture that is subject to joint control, resulting in none of the participating parties having unilateral control over the economic activity of the jointly-controlled entity. The Company's investment in a jointly-controlled entity for which it, not being the unilateral controlling owner of the entity, but has the ability to exercise joint control, is accounted for using the equity method. Under the equity method, the Company's proportionate share of the jointly-controlled entities' net income or loss and amortization of any identifiable intangibles arising from the investment is included in "Share of income (losses) of jointly-controlled entities". The Company ceases to apply the equity method when its share of the jointly-controlled entities' losses exceeds the carrying value of its investment.

#### (g) Investments

All other investments for which the Company does not have the ability to exercise joint control or significant influence (generally, when the Company has an investment of less than 20% ownership and no representation on the investee's board of directors) and for which there is not a readily determinable fair value, are accounted for using the cost method. Dividends and other distributions of earnings from such investees, if any, are included in income when declared. The Company periodically evaluates the carrying value of its investments accounted for under the cost method for impairment with any loss included in the consolidated statement of operations and comprehensive income in the period when it is incurred.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (h) Accounts and bills receivable

Accounts and bills receivable are presented net of an allowance for doubtful accounts, which is an estimate of amounts that may not be collectible. The Company does not charge interest on accounts receivable. The allowance for doubtful accounts is estimated based on historical experience, receivable aging, current economic trends and specific identification of certain receivables that are at the risk of not being paid. The Company reviews the aged analysis of accounts and bills receivable on a regular basis. Whenever it is clear that the amounts are deemed to be uncollectible, receivables are written off against the allowance for doubtful accounts.

#### (i) Inventories

Inventories are stated at the lower of cost or market value. Cost, calculated on the weighted average basis, comprises direct materials and, where applicable, direct labor and an appropriate proportion of overheads.

#### (j) Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after an item of property, plant and equipment has been put into operation, such as repairs and maintenance, is normally charged to the consolidated statement of operations and comprehensive income in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment, and where the cost of the item can be measured reliably, the expenditure is capitalized as an additional cost of that asset. Depreciation is calculated on the straight-line basis at annual rates over the asset's estimated useful life.

The principal annual rates used for this purpose are as follows:

	Annual rate
Leasehold improvements	Over the shorter of the lease terms or the estimated useful life
Buildings	4.5%
Plant	4.5%
Machinery	10%
Moulds	20% - 33%
Transportation equipment	15% - 20%
Furniture, fixtures and equipment	15%

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on derecognition of an item of property, plant and equipment, calculated as the difference between the net disposal proceeds and the carrying amount of the item, is included in the consolidated statement of operations and comprehensive income in the period the item is derecognized. Machinery and equipment used in the home appliance business has been derecognized pending sale.

#### (k) Construction in progress

Construction in progress represents property, plant and equipment under construction or installation and is stated at cost less any accumulated impairment losses, and is not depreciated. Cost comprises the direct costs of construction, installation and other costs in making the asset ready for its intended use. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for its intended use.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (1) Impairment of long-lived assets

Long-lived assets are included in impairment evaluations when events and circumstances exist that indicate the carrying value of these assets may not be recoverable. In accordance with Financial Accounting Standards Board ("FASB") ASC 360 "Property, Plant and Equipment" the Company assesses the recoverability of the carrying value of long-lived assets by first grouping its long-lived assets with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities (the asset group) and, secondly, estimating the undiscounted future cash flows that are directly associated with and expected to arise from the use of and eventual disposition of such asset group. The Company estimates the undiscounted cash flows over the remaining useful life of the primary asset within the asset group. If the carrying value of the asset group exceeds the estimated undiscounted cash flows, the Company records an impairment charge to the extent the carrying value of the long-lived asset exceeds its fair value. The Company determines fair value through quoted market prices in active markets or, if quotations of market prices are unavailable, through the performance of internal analysis using a discounted cash flow methodology or obtains external appraisals from independent valuation firms. The undiscounted and discounted cash flow analyses are based on a number of estimates and assumptions, including the expected period over which the asset will be utilized, projected future operating results of the asset group, discount rate and long-term growth rate. Long lived assets, excluding buildings, associated with the home appliance business are considered to be impaired and accordingly have been written down to fair value less the estimated cost of disposal. Since the Company has leased a significant portion of the buildings previously occupied by the home appliance business, the Company was able to perform an impairment analysis based on anticipated future rental income, and as a result determined that they were not impaired.

#### (m) Revenue recognition

The Company recognizes revenues in accordance with the Securities and Exchange Commission (the "SEC") Staff Accounting Bulletin ("SAB") No. 104, "Revenue Recognition", which requires that four basic criteria must be met before revenue can be recognized: (1) there is persuasive evidence that an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectibility is reasonably assured. Net sales represent the gross invoiced amount, net of discounts, and are recognized when goods are shipped and title has passed. To the extent products are required to meet customer specifications, such products are subject to technical and quality tests that are designed to ensure compliance prior to shipment.

Under the Company's standard terms and conditions, which are mainly Free On Board shipping point, title and risk of loss are transferred to the customer at the time the product is delivered to the customer's freight forwarder.

Revenue related to camera modules ("CCMs") shipments to certain telecommunication customers in the PRC is recognized upon notarized acceptance of the product by the customer.

Revenue related to the provision of assembly services is recognized upon the completion of such services and delivery of the related product using the same criteria of SAB No. 104 stated above.

Deposits or advance payments from customers prior to delivery and passage of title of merchandise are recorded as customer deposits.

Revenue related to the provision of tooling income is recognized upon the completion of such services and delivery of the related product using the same criteria of SAB No. 104 stated above.

In accordance with the relevant tax laws in the PRC, value-added tax is levied on the invoiced value of sales of goods and is payable by the purchaser. Revenue is recognized net of all value-added tax imposed by governmental authorities and collected from customers concurrent with revenue-producing transactions.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (n) Advertising costs

Advertising costs represent costs relating to promotional activities intended to stimulate, directly or indirectly, a customer's purchase of goods, and are charged to the consolidated statement of operations and comprehensive income as incurred and are included in "Selling, general and administrative expenses" ("SG&A"). Advertising expenses were US\$231,171, US\$81,098 and US\$99,130 from continuing operations for the fiscal years ended March 31, 2013, 2012 and 2011, respectively. Whereas, nil, US\$1,754 and US\$2,279 were from discontinued operations for the fiscal years ended March 31, 2013, 2012 and 2011, respectively.

#### (o) Design and development costs

Design and development costs primarily relate to the cost of samples and prototypes and salaries of our engineers. The Company expenses all design and development costs when incurred. Included in the SG&A expenses line item in the consolidated statement of operations and comprehensive income were design and development costs of US\$820,649, US\$620,768 and US\$870,616 from continuing operations (from discontinued operations 2013: nil, 2012: US\$106,190 and 2011: US\$216,618) for the fiscal years ended March 31, 2013, 2012 and 2011, respectively.

#### (p) Shipping and handling costs

In accordance with FASB ASC 605 "Revenue Recognition", shipping and handling fees billed to customers are included in net sales in the consolidated statement of operations and comprehensive income. Any shipping and handling costs incurred by the Company associated with the sale of products are included in SG&A on the face of the consolidated statement of operations and comprehensive income. During the fiscal years ended March 31, 2013, 2012 and 2011, shipping and handling costs charged to SG&A were US\$327,795, US\$217,368 and US\$146,608 from continuing operations (from discontinued operations 2013: nil, 2012: US\$722,371 and 2011: US\$730,807), respectively.

Any inbound freight charges, receiving, inspection, warehousing and internal transfer costs incurred by the Company are expensed as cost of goods sold. During the fiscal years ended March 31, 2013, 2012 and 2011, inbound freight costs charged to cost of goods sold were US\$21,434, US\$20,922 and US\$32,566 from continuing operations (from discontinued operations 2013: nil, 2012: US\$70,279 and 2011: US\$9,781), respectively. Other related costs are included in manufacturing overheads.

#### (q) Foreign currencies

All transactions in currencies other than functional currencies during the year are translated at the exchange rates prevailing on the respective transaction dates. Monetary assets and liabilities existing at the balance sheet date denominated in currencies other than functional currencies are remeasured at the exchange rates existing on that date. Exchange differences are recorded in the consolidated statement of operations and comprehensive income.

The functional currency of Global-Tech is the U.S. Dollar ("US\$"). The financial statements of all subsidiaries are translated in accordance with FASB ASC 830 "Foreign Currency Matters". All assets and liabilities are translated at the rates of exchange ruling at the balance sheet date and all income and expense items are translated at the average rates of exchange over the year. All exchange differences arising from the translation of subsidiaries' financial statements are recorded as a component of comprehensive income or loss.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (r) Income taxes

Deferred income taxes are provided using the asset and liability method in accordance FASB ASC 740 "*Income taxes*". Under this method, deferred income taxes are recognized for all significant temporary differences at enacted rates and classified as current or non-current based upon the classification of the related asset or liability in the consolidated statements. A valuation allowance is provided to reduce the amount of deferred tax assets if it is considered more likely than not that some portion of, or all, the deferred tax asset will not be realized.

FASB ASC 740 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements, and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides accounting guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties from tax assessments, if any, are included in income taxes in the consolidated statement of operations and comprehensive income.

The Company records its possible interest and penalties due to any potential underpayment of income taxes, if and when required, in interest expense and other expenses, respectively.

The Company did not provide for deferred income taxes and foreign withholding taxes on the undistributed earnings of foreign subsidiaries. The Company intends to permanently reinvest foreign subsidiaries' earnings.

#### (s) Stock compensation expense

The Company adopted FASB ASC 718 "Compensation-Stock Compensation", and related interpretations in accounting for its employee share-based payment transactions. Accordingly, stock compensation cost is measured at the date of grant and estimated using the option pricing model. Stock issued to an employee as compensation is measured at fair value based on the grant date quoted market price. The compensation cost for share-based awards with service conditions is amortized over the vesting period of the awards using the straight-line method provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant date fair value of the award that is vested at that date.

The Company accounts for stock options granted to a counterparty other than an employee in accordance with FASB ASC 505 "Equity". Fair value of the equity instruments is recognized on the measurement date which is the earlier of (i) a commitment for performance by the counterparty to earn the equity instruments being reached or (ii) the counterparty's performance being completed.

#### (t) Retirement costs

Retirement cost contributions relating to defined contribution plans are made based on a percentage of the relevant employees' salaries and are included in the consolidated statement of operations and comprehensive income as they become payable. The assumptions used in calculating the obligation for retirement cost contributions depend on the local economic environment, interpretations and practices in respect thereof.

#### (u) Operating leases

Leases where substantially all the rewards and risks of ownership remain with the lessor are accounted for as operating leases. Payments made under operating leases net of any incentives received from the lessors are charged to the consolidated statement of operations and comprehensive income on a straight-line basis over the period of the relevant leases.

Assets leased out under operating leases are included in "Property, plant and equipment" in the consolidated balance sheet. They are depreciated over the expected useful lives on a basis consistent with similar owned items of property, plant and equipment. Rental income (net of any incentives given to lessees) is recognized on a straight-line basis over the lease terms.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (v) Earnings (loss) per share

Basic earnings or loss per share of common stock is computed by dividing the net income or loss available to common shareholders for the year by the weighted average number of shares of common stock outstanding during the year.

Diluted earnings or loss per share of common stock reflects the potential dilution that could occur if securities or other contracts/arrangements to issue shares of common stock were exercised or converted into shares of common stock. Common equivalent shares, comprised of incremental shares of common stock issuable upon the exercise of stock options, are included in diluted earnings or loss per share if they have a dilutive effect by application of the treasury stock method.

#### (w) Treasury stock

The Company accounts for the acquired shares of its own capital stock ("treasury stock") in accordance with Accounting Research Bulletin ("ARB") No. 43, Chapter 1B, and Accounting Principles Board Opinion No. 6, "Status of Accounting Research Bulletins". The cost of the acquired treasury stock is shown as a deduction from shareholders' equity. Gains on sale of treasury stock not previously accounted for as constructively reissued are credited to additional paid-in capital while losses are charged to additional paid-in capital to the extent that previous net gains from the sale or retirement of the same class of stock are included therein, otherwise the loss is charged to retained earnings/accumulated deficit.

#### (x) Comprehensive income (loss)

Comprehensive income (loss) is defined as the consolidated change in equity of the Company during a period from transactions and other events and circumstances excluding transactions resulting from investments by owners and distributions to shareholders. Total net comprehensive income (loss) includes net income or loss for the year as well as additional other comprehensive income (loss). The Company's other comprehensive income (loss) consists of the Company's share of other comprehensive income of jointly-controlled entities, unrealized gains and losses on available-for-sale investments and foreign currency translation adjustments, all recorded net of tax.

### (y) Accruals and loss contingencies

The Company makes provision for all loss contingencies when information available prior to the issuance of the consolidated financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the consolidated financial statements and the amount of loss can be reasonably estimated.

For provision or accruals related to litigation, social insurance, property tax, etc, the company makes provisions based on information from legal counsel and the best estimation of management. The company assesses the potential liability to be recorded if the contingency loss is probable and the amount of loss can be reasonably estimated. The actual resolution of the contingency may differ from the Company's estimates. If the contingency was settled for an amount greater than the estimate, a future charge to income would result. Likewise, if the contingency was settled for an amount that is less than our estimates, a future credit to income would result.

#### (z) Segment reporting

The Company follows FASB ASC 280 "Segment Reporting". During fiscal 2013, the Company operated and managed its business in three segments. The Company exited the home appliance business in January 2012 and thus the home appliance segment is presented as a discontinued operation. The accounting policies used in its segment reporting are the same as those used in the reporting of its results in the consolidated financial statements.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (aa) Warranty cost

The Company estimates its warranty provision for defective products based on various factors including the likelihood of defects, an evaluation of its quality controls, technical analysis, industry information on comparable companies and its own experience. Based on the above consideration, the Company has accrued for warranty costs of US\$403,627 for the year ended March 31, 2013 (2012: US\$729,528 and 2011: US\$296,410). The basis and the amount of the warranty accrual are reviewed and adjusted periodically based on actual experience.

#### (ab) Government grants

Government grants are recognized when received and the stipulated activities are achieved. Such amounts are included in other income in the consolidated statement of operations and comprehensive income.

#### (ac) Retained Earnings and Reserves

The Company's retained earnings are not restricted as to the payment of dividends except to the extent dictated by prudent business practices. The Company believes that there are no material restrictions, including foreign exchange controls, on the ability of its non-PRC subsidiaries to transfer surplus funds to the Company in the form of cash dividends, loans, advances or purchases. With respect to the Company's PRC subsidiaries, there are restrictions on the payment of dividends and the distribution of dividends from the PRC. On March 16, 2007, the PRC promulgated the Law of the PRC on Enterprise Income Tax (the "New Law") by Order No. 63 of the President of the PRC. Please refer to Note 17 for further details of the New Law. The New Law became effective from January 1, 2008. Prior to the enactment of the New Law, when dividends were paid by the Company's PRC subsidiaries, such dividends would reduce the amount of reinvested profits and accordingly, the refund of taxes paid might be reduced to the extent of tax applicable to profits not reinvested. Subsequent to the enactment of the New Law, due to the removal of tax benefit related to reinvestment of capital in PRC subsidiaries, the Company may not reinvest the profits made by the PRC subsidiaries. Payment of dividends by PRC subsidiaries to foreign investors on profits earned subsequent to January 1, 2008 will also be subject to withholding tax under the New Law. In addition, pursuant to the relevant PRC regulations, a certain portion of the profits made by these subsidiaries must be set aside for future capital investment and are not distributable, and the registered capital of the Company's PRC subsidiaries are also restricted. Under applicable PRC regulations, foreign-invested enterprises in China may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, a foreign-invested enterprise in China is required to set aside at least 10% of its after-tax profit based on PRC accounting standards each year for its general reserves until the cumulative amount of such reserves reaches 50% of its registered capital. These reserves are not distributable as cash dividends. The board of directors of a foreign-invested enterprise has the discretion to allocate a portion of its after-tax profits to staff welfare and bonus funds, which may not be distributed to equity owners except in the event of liquidation. However, the Company believes that such restrictions will not have a material effect on the Company's liquidity or cash flows.

#### (ad) Statutory Reserves

The PRC subsidiaries are required by the relevant laws and regulation to transfer at least 10% of their after-tax profit determined in accordance with the PRC accounting rules and regulations to a statutory surplus reserve until such reserve balance reaches 50% of their registered capital.

The Company transferred US\$1,238,361 and Nil out of after-tax income of its PRC subsidiaries to the statutory reserves for the years ended March 31, 2013 and 2012, respectively.

The statutory reserves can only be utilized to offset prior years' losses or for capitalization as paid-in capital. No distribution of the remaining reserves shall be made other than upon liquidation of the PRC subsidiaries.

#### Recent accounting pronouncements

- (i) In December 2011, the FASB issued ASU 2011-11, "Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities", which requires entities to disclose both gross and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting agreement. The objective of the disclosure is to facilitate comparison between those entities that prepare their financial statements on the basis of U.S. GAAP and those entities that prepare their financial statements on the basis of IFRS. In January 2013, the FASB issued ASU 2013-01, "Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Asset and Liabilities", which clarifies the scope of the offsetting disclosures of ASU 2011-11. Both ASUs are effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013. Retrospective presentation for all comparative periods presented is required. The Company believes that its adoption of these ASUs will not have any material impact on its consolidated financial statements.
- (ii) In February 2013, the FASB issued ASU 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income", which requires entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, entities are required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, entities are required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail on these amounts. This ASU is effective prospectively for reporting periods beginning after December 15, 2012. The adoption of ASU 2013-02 does not have any material impact on its consolidated financial statements.

#### 11. LAND USE RIGHTS, NET

Land use rights represent prepayments under operating leases for land use for a predetermined time period. They are charged to the consolidated statement of operations and comprehensive income over the lease periods on a straight-line basis. The Company has the rights to use certain pieces of land located in Mainland China and has obtained or is in the process of obtaining the land use rights certificates covering a substantial portion of such lands. On August 26, 2006, the Company entered into a supplementary agreement with the Dongguan local government regarding the use of a piece of land with a total area of 45,208 square meters which the Company had occupied. Pursuant to the supplementary agreement, the Company has vacated a portion of this land (13,698 square meters in aggregate), which was previously used as a recreational area, and has arranged to use the remaining portion of the land (31,510 square meters) until August 6, 2043. However, the Company had to pay monthly fees of RMB59,248 (approximately US\$9,039) to the local government for the period from January 1, 2008 to December 31, 2008 and RMB193,048 (approximately US\$31,079) from January 1, 2009 onwards until August 6, 2043. Up to March 31, 2013, the Company has obtained a sizable portion of its land use rights certificates covering 183,900 square meters out of a total area of 207,300 square meters. The application of certain property ownership certificates as further detailed in note 10 to the consolidated financial statements commences only after the land use rights certificates for the relevant pieces of land have been obtained. The Company is in the process of obtaining the remaining land use rights and property ownership certificates. However, no definitive time frame has been provided by the Dongguan local government as to when the certificates will be provided to the Company.

#### 12. INTERESTS IN JOINTLY-CONTROLLED ENTITIES

During the fiscal year ended March 31, 2007, Consortium Investment (BVI) Limited ("CIBL") effectively disposed of 70% of its equity interest in Lite Array Holdings to Anwell as part of an arrangement to set up a joint venture in Mainland China to exploit the opportunity in the development and manufacturing of OLED equipment. Subsequent to the completion of the disposal, the Company still retains 2,400,000 common stock of Lite Array Holdings, representing a 30% equity interest in Lite Array Holdings through CIBL. The Company accounts for its interest in Lite Array Holdings and its subsidiaries (collectively referred to as the "jointly-controlled entities"), in which the Company does not have unilateral control, but joint control, under the equity method.

Particulars of the jointly-controlled entities are as follows:

Name	Place of incorporation/ registration	Percentage of ownership interest attributable to the Company	Principal activities
Lite Array Holdings Limited	British Virgin Islands	30	Investment holdi
Dongguan Litewell (OLED) Technology Limited*	PRC	30	Research and development OLED equipme
Litewell Technology (HK) Limited*	Hong Kong	30	Design and trading of OLI production equipme and trading of OLED produand corresponding materi

<sup>\*</sup> Wholly-owned subsidiaries of Lite Array Holdings Limited

The Company has discontinued the recognition of its share of losses of the jointly-controlled entities because the share of losses of the jointly-controlled entities exceeded the Company's interests in the jointly-controlled entities. The Company has no further obligation to fund operations.

#### 17. INCOME TAXES

Global-Tech and its subsidiaries are subject to income taxes on an entity basis on the taxable income arising in or derived from the respective tax jurisdictions in which they are domiciled or deemed to operate. Global-Tech and its investment holding subsidiaries incorporated in the British Virgin Islands ("BVI") are not subject to tax in the BVI in accordance with the BVI

tax regulations. The Company conducts substantially all of its businesses and operations through its subsidiaries located in

Hong Kong and Mainland China.

The Company's operating subsidiaries are subject to various statutory tax rates, according to the respective jurisdictions in which they operate. The Company's subsidiaries in Hong Kong are subject to Hong Kong profits tax at a rate of 16.5% on their assessable income arising in Hong Kong during the fiscal years ended March 31, 2013, 2012 and 2011. The Company's former subsidiary in Macau was exempted from Macau Complementary Tax.

The Company's subsidiaries registered in the PRC, including DWS and DGLAD, are subject to PRC corporate income tax on income as reported in their PRC statutory accounts, adjusted in accordance with relevant PRC income tax laws and regulations. DWS and DGLAD are located in a coastal open economic zone in Mainland China and, accordingly, were entitled to a preferential tax rate of 27% (24% reduced tax rate and 3% local income tax rate) for the calendar years ended prior to December 31, 2008. During the 5th Session of the 10th National People's Congress of the PRC, which was concluded on March 16, 2007, a unified enterprise income tax law, or EIT was approved and became effective on January 1, 2008. The New EIT Law introduced a wide range of changes which include the unification of the income tax rate for domestic-invested and foreign-invested enterprises at 25%. DGLAD is entitled to a tax concession period ("Tax Holiday"), whereby it was exempted from corporate income tax for its first two profit-making years and is entitled to a 50% tax reduction for the succeeding three years. DGLAD has qualified as a High and New Technology Enterprise ("HNTE"). Accordingly, after the expiry of its Tax Holiday in December 2011, DGLAD

For financial reporting purposes, the Company has established valuation allowances by tax jurisdiction for deferred tax assets, which management believes are more likely than not to be realized in the foreseeable future. As of March 31, 2013 and 2012, the Company had tax losses carried forward of US\$23,591,422 and US\$20,843,486, respectively, which included tax losses of US\$4,114,021 and US\$2,196,670 respectively that are available indefinitely for offsetting against future taxable income of the companies in which these losses arose. Tax losses of US\$19,477,401 and US\$18,646,816 as at March 31, 2013 and 2012, respectively, may be carried back for 2 years or carried forward for 20 years from the year the tax losses arose.

A reconciliation of the movements of unrecognized tax benefits under FASB ASC 740 during the fiscal years ended March 31, 2013 and 2012, exclusive of related interest and penalties, is as follows:

As of March 31, 2013 and 2012, the Company's unrecognized tax benefits under FASB ASC 740 of US\$4,879,338 and US\$5,701,782, respectively, are presented in the consolidated balance sheets within income tax payable. The remaining balance of US\$3,991,339 and US\$3,415,661 as of March 31, 2013 and 2012, respectively, are set off against the corresponding tax losses carried forward.

If the unrecognized tax benefits under FASB ASC 740 as of March 31, 2013 were realized in a future period, these would result in a tax benefit of US\$4,879,338 (US\$5,701,782 as of March 31, 2012) and a reduction of the Company's effective tax rate.

For all the years presented and in accordance with FASB ASC 740, the Company classified interest and potential penalties relating to any underpayment of income taxes and uncertain tax positions, if and when required, as interest expense and other expenses, respectively. For the fiscal years ended March 31, 2013 and 2011, the Company reversed interest and potential penalties of US\$1,021,397 and US\$227,702, respectively, relating to certain uncertain tax positions in its consolidated statement of operations and comprehensive income. For the fiscal year ended March 31, 2012, the Company accrued interest and potential penalties of US\$121,032 relating to certain uncertain tax positions in its consolidated statement of operations and comprehensive income. As of March 31, 2013 and 2012, the Company had accrued interest and potential penalties relating to uncertain tax positions amounting to US\$651,721 and US\$1,667,602, respectively.

One of the Company's wholly-owned subsidiaries was under examination by the Hong Kong tax authority in prior years. The tax period open for examination by the tax authority included the fiscal years ended March 31, 2003 through 2011. During fiscal 2013, the Company's subsidiary and the Hong Kong tax authority reached an agreement to settle the tax audit case with additional assessable profits of HK\$12,520,654 (equivalent to US\$1,612,967) being raised together with penalty and interest on tax undercharged, for which the amount had already been provided for within FASB ASC 740. The amounts of penalty and interest expenses were HK\$2,000,000 and HK\$466,249 (equivalent to US\$257,649 and US\$60,064), respectively, which were included in "Other income, net" and "Interest income, net" from continuing operations.

The PRC tax authorities could determine that any inter-company payable account in accordance with PRC GAAP could be deemed income if such inter-company payables can not to be settled and therefore would be subject to taxation. In accordance with FASB ASC 740, we evaluated our position and determined that such inter-company payables will be settled, particularly since prior year tax assessments have been confirmed by the PRC tax authorities and such inter-company payables were not deemed as income.

Except as noted above, based on existing tax regulations in the Company's various operating jurisdictions, tax years 2010-2012 remain open to possible tax examination by relevant tax authorities.

The Company has not provided for possible income taxes on the undistributed earnings of foreign subsidiaries that are considered to be reinvested indefinitely.

#### 18. DISCONTINUED OPERATIONS

As previously disclosed and discussed elsewhere in this annual report, the Company completed its exit from the home appliance business in January 2012.

In the fiscal periods preceding the Company's exit from the home appliance business, profit margins had been rapidly decreasing, due at least in part, to the rising cost of raw materials and labor in the PRC, together with the unwillingness or inability of our customers to offset these costs through pricing increases. Customer pricing demands no longer reflected actual production costs and as a result, margins in recent years approached unacceptable levels, with the home appliance segment actually suffering significant losses in fiscal 2011.

In accordance with guidance contained in FASB ASC 205-20 "Discontinued Operations", the results of operations for the home appliance operations have been excluded from continuing operations and reported as discontinued operations for the current and prior periods.

Other income (expense), net in fiscal 2013 represented the sale of equipment and materials that had previously been written off.

An impairment loss of US\$1,230,727 was recognized in the income (loss) from discontinued operations in fiscal 2012 for machinery and equipment that was used in the operations of the home appliance segment.

# 19. BASIC AND DILUTED EARNINGS (LOSS) PER SHARE

Basic and diluted earnings (loss) per share of common stock of the Company for the fiscal years ended March 31, 2013, 2012 and 2011 is computed in accordance with FASB ASC 260 "Earnings Per Share" by dividing the net earnings (loss) for each fiscal year attributable to common stockholders by the weighted average number of shares of common stock outstanding during that fiscal year.

The following table sets forth the computation of basic and diluted earnings (loss) per share:

_	2013	2012	2011

369,752 and 365,369 stock options of Global-Tech were excluded from the computation of diluted earnings (loss) per share for the fiscal years ended March 31, 2013 and 2011 respectively, because their inclusion would have been anti-dilutive.

During the fiscal year ended March 31,2012, the weighted average share price of the Company during the year was below the exercise prices of all stock options as at March 31, 2012, resulting in no incremental common shares for that year for the purpose of diluted earnings per share calculation.

#### 20. COMMITMENTS

#### (a) Capital commitments

As of March 31, 2013 and 2012, the Company had capital commitments contracted but not provided for of US\$4,211,595 and US\$169,682, respectively, for the purchase of property, plant and equipment.

#### (b) Operating lease commitments

In addition to the land use rights described in note 11 to the consolidated financial statements, the Company has entered into various operating lease arrangements for parking lots, motor vehicles, equipment, land and office premises. The Company recorded rental expenses, excluding the land use rights payments described in note 11 to the consolidated financial statements, for the fiscal years ended March 31, 2013, 2012 and 2011 of US\$361,918, US\$352,206 and US\$445,327, respectively, and recorded lease rental income of US\$177,556, nil and US\$9,886 for the fiscal years ended March 31, 2013, 2012 and 2011, respectively. Future minimum lease payments under non-cancelable operating leases as of March 31, 2013 and 2012 were as follows:

	March 31, 2013	March 31, 2012
	US\$	US\$
Payable:		
Within one year	754,386	511,654
Over one year but not exceeding two years	374,706	521,448

Over four years but not exceeding five years	352,478	347,410
Over five years	8,929,433	9,136,892
	11,115,959	11,234,133

Subsequent to March 31, 2013, the subsidiaries of the Company renewed the tenancy agreements with the related companies and extended the leasing term for one year to March 31, 2014, with future lease payments due of US\$75,362 not reflected in the table above.

#### 21. CONTINGENCIES

(a) On October 11, 2004, Best Hero Limited ("Best Hero") issued a writ in the Court of First Instance of the High Court of Hong Kong (the "High Court") against a subsidiary of the Company for a claim of US\$4,250,400. The claim related to two purchase orders issued by the subsidiary on May 31, 2004 and June 1, 2004, respectively, to Best Hero for the purchase of LCD television panels for a total purchase price of US\$4,620,000. However, the LCD television panels which were paid for in the initial shipment were determined to be unacceptable to the subsidiary. Accordingly, further delivery of the remaining orders was refused. Best Hero alleged that the subsidiary had repudiated the contract, and therefore Best Hero instituted legal proceedings to claim for damages. A defence and counter-claim was filed by the subsidiary in the High Court on December 28, 2004. Best Hero filed a Reply and Defence to Counterclaim on January 11, 2005. No further activity occurred in this case through March 31, 2013.

In accordance with FASB ASC 450 "Contingencies", the Company believes that with such a lengthy interval between the claim being filed and there being no activity between the two parties, the probability that the Company will incur a loss is remote. Accordingly, the provision for this contingent liability of US\$0.9 million was reversed during the year ended March 31, 2011.

(b) As of March 31, 2013, the Company has accrued as a current liability US\$4,879,338 for unrecognized tax benefits and US\$651,721 of related interest and penalties. The unrecognized tax benefits relate mainly to potential transfer pricing arrangements reflected in the Hong Kong and PRC income tax returns of certain subsidiaries of the Company. The final outcome of these tax uncertainties is dependent upon various matters

including tax examinations, legal proceedings, certain authority proceedings, changes in regulatory tax laws and interpretations of those tax laws, or expiration of statutes of limitation. However, based on the number of jurisdictions, the uncertainties associated with litigation, and the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, which could include formal legal proceedings, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties.

#### 23. EMPLOYEE BENEFITS

The Company operates a Mandatory Provident Fund ("MPF") scheme and an Occupational Retirement Schemes Ordinance ("ORSO") scheme for all its qualified employees in Hong Kong. Both the MPF and the ORSO schemes are defined contribution programs and are administered by independent fund companies.

MPF is available to all employees aged 18 to 64 and with at least 60 days of service as an employee of the Company in Hong Kong. Under the MPF scheme, both the Company and each of the qualified employee contribute the lower of 5% of the employees' basic salary and HK\$1,250 (approximately US\$161), subject to a cap of a monthly basic salary of HK\$25,000 (approximately US\$3,221). Qualified employees are entitled to 100% of the Company's contributions together with accrued returns irrespective of their length of service with the Company, but the benefits are required by law to be preserved until the retirement age of 65.

Certain full-time employees in Hong Kong who joined the Company before December 2000 are eligible to participate in the ORSO scheme immediately following the date on which they have completed their probationary period. Under the ORSO scheme, both the Company and each of the eligible employee contribute 5% of the employees' basic salary.

The costs of these schemes recognized during the fiscal years ended March 31, 2013, 2012 and 2011 were US\$48,075, US\$61,107 and US\$72,878, respectively.

According to the relevant laws and regulations in the PRC, the Company is required to contribute 17.3% of the stipulated employee salary set by the local government of Dongguan to certain social insurance, medical and retirement benefit schemes for its employees. No forfeited contributions may be used by the employer to reduce the existing level of contributions. The Company also provides housing, medical care and subsidized meals to all existing factory employees. The aggregate amounts incurred by and provided for the Company for all such benefits were US\$1,963,173 and US\$2,547,639 during the fiscal years ended March 31, 2013 and 2011, respectively. However, as a result of the payment of severance in accordance with government rules upon the exit from the Home Appliances segment, the Company recognized a net benefit of US\$449,557 during the fiscal year ended March 31, 2012 due to a reversal of social insurance provisions accrued for previous years.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

# 24. SEGMENT INFORMATION

The Company operates in three segments: Electronic Components, Electronic Manufacturing Services ("EMS") and Others for the fiscal year ended 2013. These segments are operated and managed as separate strategic business units that offer different products/services. The Company's "Electronic Components" segment produces complementary metal oxide semiconductor ("CMOS") CCMs primarily for sale to cellular phone and tablet manufacturers in Mainland China. The Company's EMS consists of surface mount technology ("SMT") processing of printed circuit boards and assembly services for cellular phone marketers in Mainland China. The Company's "Others" segment comprises a number of immaterial product lines and development programs that have not materialized to date into full product businesses. None of these units has ever individually met the quantitative thresholds for determining reportable segments. The chief operating decision maker evaluates the results of each segment in assessing performance and allocating resources among the segments.

There were no material intersegment sales or transfers during the fiscal years ended March 31, 2013, 2012 and 2011.

As stated in note 18 – "Discontinued Operations" of Notes to Consolidated Financial Statements, the Home Appliance segment was discontinued effective in January 2012. The results of operations of the Home Appliance segment have been classified as "Income (Loss) from discontinued operations" on the face of the consolidated statement of operations and comprehensive income. The segment profit for fiscal year ended March 31, 2013 represented sales of equipments and materials that had previously been written off.

#### 25. CONCENTRATION OF RISKS

Concentration of credit risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk primarily consist of cash and cash equivalents, restricted cash, available-for-sale investments, financial assets included in deposits and other assets and accounts and bills receivable.

Substantially all of the Company's cash and cash equivalents, restricted cash, interest receivable, and available-for-sale investments were financial assets that management believes are of high credit quality.

The Company's concentration on a limited number of customers will continue to represent a substantial portion of our sales for the foreseeable future. The loss of any major customers or a decrease or delay in orders, or anticipated spending by such customers could materially reduce our revenues and profitability. Our largest customers could also engage in business combinations, which could increase their size, reduce their demand for our products as they recognize synergies or rationalize assets and increase or decrease the portion of their sales to any single customer.

The Company conducts credit evaluations of its customers but does not require collateral or other security from its customers. The Company makes allowance for doubtful accounts primarily based on the age of receivables and factors surrounding the customers' credit risk.

Current vulnerability due to certain concentrations

The Company's operations are mainly conducted in Hong Kong and Mainland China with a majority of its sales from continuing operations to Asia. As a result, the Company's businesses, financial condition, results of operations and cash flows may be influenced by the political, economic and legal environments in Hong Kong and Mainland China, and by the general state of the Hong Kong and Mainland China economies.

The Company's operations may be adversely affected by significant political, economic and social uncertainties in Mainland China. Although the PRC government has been pursuing economic reform policies for more than 20 years, no assurance can be given that the PRC government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption or unforeseen circumstances affecting its political, economic and social conditions. There is also no guarantee that the PRC government's pursuit of economic reforms will be consistent or effective.

A significant portion of the Company's businesses are transacted in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted daily by the People's Bank of China. However, the unification of the exchange rates does not imply the convertibility of RMB into United States dollars or other foreign currencies. All foreign exchange transactions continue to take place either through the People's Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China. Approval of foreign currency payments by the People's Bank of China or other institutions generally requires submitting a payment application form together with suppliers' invoices, shipping documents, signed contracts and/or other documents, as appropriate.

A significant portion of the Company's sales in previous years from discontinued operations were made to the U.S. and the Company is responsible for ensuring that its products are safe and satisfy all of the requirements of the consumer products safety commission ("CPSC") in the U.S. This may also apply to OEM products manufactured by the Company to customer specifications. In the event of a recall required by the CPSC, the customers may require the Company to provide replacement conforming units at our cost, which could have a material adverse effect on its business, quality reputation and results of operations.

### 26. FINANCIAL INSTRUMENTS

The Company's financial instruments that are subject to credit risks are limited to its cash and cash equivalents, restricted cash, available-for-sale investments, accounts and bills receivable, financial assets included in deposits and other assets, amounts due from a related party.

The Company's financial assets and liabilities are recognized initially at cost which is the fair value of the consideration given (in the case of assets) or received (in the case of liabilities). Transaction costs are included in the initial measurement of all financial assets and liabilities. Subsequent to initial recognition, assets and liabilities are either valued at cost, amortized cost using the effective interest rate method or fair value, depending on classification. The following table sets forth the carrying values and estimated fair values of the Company's financial assets and liabilities recognized as of March 31, 2013 and 2012. There were no material unrecognized financial assets and liabilities as of March 31, 2013 and 2012.

The carrying amounts of the Company's cash and cash equivalents, restricted cash, accounts and bills receivable, financial assets included in deposits and other assets, amounts due from a related party, accounts payable, accrued salaries, allowances and other employee benefits and other accrual liabilities approximate to their fair values because of their short maturities. The available-for-sale investments are stated at quoted market price.

The Company's cash and cash equivalents and restricted cash are placed primarily with banking institutions in the PRC with high credit ratings. The Company performs periodic credit standing evaluation of those banking institutions to limit the Company's exposure to any significant credit risks.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

# 26. FINANCIAL INSTRUMENTS (continued)

The Company's accounts and bills receivable largely represent amounts due from the Company's principal customers. Receivable balances are monitored on an ongoing basis and the Company's exposure to bad debts is not significant. The Company does not require collateral or other credit enhancement for any of its financial assets.

If the counterparties to the above financial assets fail to perform completely under the terms of their contract/arrangement, the maximum loss, based on the gross fair value of the financial instruments, due to this credit risk would be US\$71,619,120 and US\$78,065,336 as at March 31, 2013 and 2012, respectively.

# 27. FAIR VALUE MEASUREMENTS

FASB ASC 820 "Fair Value Measurement and Disclosures", the Company adopted in fiscal 2009, clarify that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability, such as inherent risk, transfer restrictions and risk of non-performance. As a basis for considering such assumptions, it establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

- Level 1 Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 Unobservable inputs which are supported by little or no market activity.

FASB ASC 820 "Fair Value Measurements and Disclosures", describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset. The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company's financial assets carried at fair value on a recurring basis are detailed in the table below. The fair values of such financial assets are measured in accordance with FASB ASC 820 inputs, including quoted market price.

Assets measured at fair value on a recurring basis as of March 31, 2013 and 2012 are summarized below:

### 28. STOCK COMPENSATION

#### (a) Amended and Restated 1997 Stock Option Plan of Global-Tech

In September 1997, the Board of Directors of Global-Tech adopted Global-Tech's 1997 Stock Option Plan (as amended, the "1997 Plan"). The 1997 Plan provides for the grant of (i) options that are intended to qualify as incentive stock options ("Incentive Stock Options") within the meaning of Section 422 of the U.S. Internal Revenue Code of 1986, as amended (the "Code") to employees and (ii) options not intended to qualify as Incentive Stock Options to employees and consultants. The total number of shares of common stock of Global-Tech for which options may be granted under the 1997 Plan is 400,000 shares. The 1997 plan expired on September 17, 2008 and no further grants can be made from this plan after that date.

The 1997 Plan is administered by the Board of Directors, or a committee of directors appointed by the Board, who determines the terms of options, including the exercise price, the number of stock subject to the options and the terms and conditions of exercise. No option granted under the 1997 Plan is transferable by the optionee other than by will or the laws of descent and distribution and each vested option is exercisable within the contractual period of the option. With respect to any participant who owns (or is deemed to own) stock possessing more than 10% of the voting rights of Global-Tech's outstanding capital stock, the exercise price of any ISO must not be less than 110% of the fair market value of the stock on the date of grant. The term of each option granted pursuant to the 1997 Plan may be established by the Board of Directors of Global-Tech, or a committee of the Board of Directors of Global-Tech, in its sole discretion; provided,

of Global-Tech, or a committee of the Board of Directors of Global-Tech, in its sole discretion; provided, however, that the maximum term of each ISO granted pursuant to both the 1997 Plan is 10 years. With respect to any ISO granted to a participant who owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of all classes of Global-Tech's outstanding capital stock, the maximum term is five years. Shares of common stock distributed under the 1997 Plan will be from authorized, but unissued stock or common stock held in the treasury of the Company. Every option granted shall vest and become exercisable in accordance with the terms of the applicable option agreement. Options can be exercised for a period not exceeding 10 years from the date of grant.

No options issued pursuant to the 1997 Plan were exercised or expired during fiscal 2011.

During fiscal 2012, an aggregate of 1,250 options with exercise prices of US\$25.00 and US\$30.56 per share were forfeited upon resignation of the relevant participants and 82,167 options with exercise prices between US\$19.00 and US\$25.00 per share expired including 65,500 options granted to Directors.

During fiscal 2013, an aggregate of 5,950 options with exercise prices of US\$15.60 to US\$30.56 per share were forfeited upon resignation of the relevant participants, employment contract.

# (b) 2005 Stock Option Plan of Global-Tech

In October 2005, the Board of Directors of Global-Tech adopted Global-Tech's 2005 Stock Option Plan (the "2005 Plan"). The 2005 Plan provides for the grant of (i) "incentive stock options" ("ISOs") within the meaning of Section 422 of the Code; (ii) non-qualified stock options that do not qualify as ISOs ("NQSOs"); and (iii) stock appreciation rights. The total number of shares of common stock of Global-Tech for which options may be granted under the 2005 Plan is 450,000 shares.

The 2005 Plan is administered by the Board of Directors of Global-Tech or a committee appointed by the Board of Directors of Global-Tech, who determines the terms of options, including the exercise price, the number of stock subject to the options and the terms and conditions of exercise. No option granted under the Plan is transferable by the optionee other than by will or the laws of descent and distribution and each vested option is exercisable within the contractual period of the option. With respect to any participant who owns (or is deemed to own) stock possessing more than 10% of the voting rights of Global-Tech's outstanding capital stock, the exercise price of any ISO must not be less than 110% of the fair market value of the stock on the date of grant. The term of each option granted pursuant to the Plan may be established by the Board of Directors of

Global-Tech, or a committee of the Board of Directors of Global-Tech, in its sole discretion; provided, however, that the maximum term of each ISO granted pursuant to the 2005 Plan is 10 years. With respect to any ISO granted to a participant who owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of all classes of Global-Tech's outstanding capital stock, the maximum term is five years. Every option granted shall vest and become exercisable in accordance with the terms of the applicable option agreement. Options can be exercised for a period not exceeding 10 years from the date of grant.

During fiscal 2011, 20,000 options were granted and none were forfeited.

During fiscal 2012, no options were granted and none were forfeited.

During fiscal 2013, no options were granted and none were forfeited.

(c) Global-Tech Advanced Innovations Inc. 2011 Omnibus Equity Plan

The Global-Tech Advanced Innovations Inc. 2011 Omnibus Equity Plan (the "Omnibus Plan") was adopted by our Board of Directors in October 2010 and approved by the Company's shareholders in November 2010. The plan provides for the grant of stock options (non-statutory and incentive), stock appreciation rights, restricted stock units, performances shares and common shares.

A committee authorized by the Board of Directors (the "Committee") will administer the Omnibus Plan. Unless otherwise determined by the Board of Directors, the Compensation Committee will administer the Omnibus Plan. Subject to the terms of the Omnibus Plan, the Committee has the sole discretion to select the employees, consultants, and non-employee directors who will receive awards, determine the terms and conditions of awards, and to interpret the provisions of the Omnibus Plan and outstanding awards. The Committee may not, without the approval of the Company's shareholders,

institute an exchange program under which outstanding awards are amended to provide for a lower exercise price or cancelled in exchange for awards with a lower exercise price.

Awards granted under the Omnibus Plan are generally not transferable, and all rights with respect to an award granted to a participant generally will be available during a participant's lifetime only to the participant. If the Committee makes an award transferable, such award will contain such additional terms and conditions as the committee deems appropriate.

For the fiscal years ended March 31, 2012 and 2011, no shares or options was granted under the 2011 Omnibus Equity Plan.

For the fiscal year ended March 31, 2013, 73,000 options were granted to officers and directors, 5,000 options to an employee and 8,000 options to a consultant.

Under the 1997 Plan and the 2005 Plan (the "Plans"), which expire in 10 years, options granted generally vest 25% after the first year of service and ratably each month over a further 36-month period.

The expected life of the options is based on the historical data and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcomes. The risk-free rate for periods within the expected life of the options is based on the U.S. Treasury yield curve with maturity equal to the expected life of the options in effect at the time of grant.

In January 1999, the Board of Directors of Global-Tech adopted an employee stock purchase plan. The plan was approved by the stockholders at the annual meeting of stockholders in March 1999. The total number of common stock which may be granted under the plan is 450,000 shares. Stock grants may be awarded under the plan to the employees, including officers and directors, and non-employee directors and consultants in consideration for their services to the Group.

During the fiscal year ended March 31, 2007, Global-Tech granted an aggregate of 3,750 shares of common stock of Global-Tech to an employee with an effective grant date of November 6, 2006. 750 shares of such common stock vested and were issued on the first anniversary of the date of the stock grant and 750 shares of such common stock vested and were issued on the second, third, fourth, and fifth anniversaries of the date of the stock grant, respectively. 1,500 shares were issued during fiscal year 2013.
